'Russia Could Win War Minus Shot'—Collins

Chief Of Staff Says U. S. Must Balance Military Needs

CLEVELAND, May 19—(AP)—The Army's chief of staff said here today that America must strike a fine balance between military and domestic needs to preserve world peace and prevent financial disaster.

Gen. J. Lawton Collins spoke at an Armed Forces day luncheon here, saying the day has world-wide significance to those who seek to destroy freedom.

He said Russia possibly 'could win a war without a shot being fired.'

While he did not refer to Russia by name, he said that "those who oppose us at every turn in our quest for a lasting peace and who regard us as their greatest obstacle to world domination now maintain:

"1. A land army greater in numbers than the combined armies of the United States and its friends.

"2. An air force whose strength in nearly all categories is now as large as any in the world and whose strength is mounting month by month.

"3. One of the world's great submarine fleets and an intensive submarine development construction program."

He got across the name of the nation he meant when he said "we cannot overlook the fact that recently an atomic explosion took place behind their borders."

The United States, at the other side of the balance, has a small but good army, a navy without equal in the world, and an air force that "surpasses in quality that of any potential enemy," Gen. Collins said.

He warned against seeking absolute security by matching a potential aggressor tank-for-tank, division-for-division, plane-for-plane, and ship-for-ship.

"Arms-race security alone would be fragile security at best," he said. "At worst it could mean economic disaster."

"We must realize that a fine balance must be struck between military requirements and the needs of our domestic economy."

"Although there seems to be very little brightness in our national security picture and, although at times my optimism is dampened, I am still of the opinion that we can prevent war, provided we Americans continue to support programs we now have in progress, such as the European recovery program, the North Atlantic treaty, the mutual defense assistance program, and the strengthening of our own armed forces."

Rep. Wolcott Doubts Rent Control Approval

WASHINGTON, May 19—Rep. Wolcott (R-Mich.) expressed doubt today Congress will continue federal rent controls, saying they are "no longer necessary."

Wolcott, top-ranking Republican on the House banking committee, is a longtime foe of federal rent ceilings. He said a rent bill approved by the committee yesterday "is a political face-saving compromise and might cause chaos."

By a 13 to 4 vote, the committee approved a one-year continuation of controls—with the provision that ceilings would be lifted automatically December 31 in all localities where the governing body or the citizens did not vote to continue them until June 30, 1951.

A spokesman for the AFL Street, Electric Railway and Motor Coach employees said early today efforts are being made to resume negotiations with other companies. Federal and state mediators are meeting separately with the companies.

The drivers, who have been getting \$14.05 and \$14.25 an hour, want \$16.55.

Axis Sally Must Serve Sentence

Court Refuses Appeal; 10-30 Years Upheld

WASHINGTON, May 19—(AP)—The U. S. Circuit Court of Appeals ruled today that Mildred E. (Axis Sally) Gillars must serve 10 to 30 years in prison for broadcasting Nazi propaganda during World War II.

The white-haired 49-year-old former actress was convicted more than a year ago in federal district court here. The verdict was handed down by a jury which deliberated 17 hours and 20 minutes.

In addition to the sentence of from 10 to 30 years, she also was fined \$10,000. She would be eligible for parole after serving 10 years in prison.

Today's development marked another scene in one of the post-war period's longest treason dramas. Miss Gillars first was arrested nearly five years ago when American troops entered Berlin.

Before the downfall of the Nazis, her smooth-voiced radio shows became known to millions of G.I.s. She was the supposedly glamorous radio siren who taught them the haunting strains of "Lili Marlene" which became the world war marching-fighting song of the American infantry.

Since Federal Judge Edward M. Curran pronounced sentence on March 25, 1949, Miss Gillars had been held in the District of Columbia jail.

There was no immediate statement concerning whether she would appeal today's decision to the United States Supreme Court.

Local Census Figures To Be Announced

WASHINGTON, May 19—(AP)—With the 1950 population count more than 95 per cent complete, the Census Bureau had decided to have the tentative figures announced locally for cities of 1,000 or more.

The announcements will be made this month and into June. Original plans had called for local announcements only for counties and for cities having more than 10,000 population. The bureau plans no announcements at all now for towns with less than 1,000 population.

It will be mid-July before the tentative state population figures begin to be made available here.

Three bettors, who normally would have been happy to settle for a \$3.60 return on their \$2 bet, collected \$216.40 each on a horse which ran second.

Gas Line Explodes Near Somerset, Ohio

SOMERSET, May 19—(AP)—A section of the "Little Big Inch" pipeline blew up today with a deafening roar.

No one was injured in the blast, a mile south of this Perry county town, but escaping natural gas later caused a serious fire hazard.

The Ohio Highway Patrol rerouted traffic away from the scene. Employees of the Texas Eastern Transmission Corp. strived to shut valves and stop the flow of gas in the 20-inch line.

A 40-foot stretch of the pipe was wrecked and a crater 25 feet deep was created. Dirt and sand were blown over an area of 200 yards.

No fire followed the explosion, which occurred about 8:10 a. m. The blast occurred on the property of the St. Joseph Priory, a training school for young priests of the Dominican order.

Rev. James McClarnay said there was a "deafening roar."

There was no human being within a half mile, but a herd of cows in a nearby field stampeded.

Many residents of this community of 1300 population sought to rush to the scene, but were held back by highway patrolmen.

The "Little Big Inch" runs from Houston, Texas, to Linden, N. J. It is paralleled by the 24-in. "Big Inch" line along most of the route.

Taft Says His Charges 'Stand Undisputed'

WASHINGTON, May 19—(AP)—President Truman's refusal to discuss Republican charges of "political immorality" in his Administration was taken by Senator Taft today as showing that the charges stand undisputed.

Taft, Ohio Republican who raised the accusation, referred to the no-comment stand taken by Mr. Truman at a White House news conference yesterday.

The President, meeting the press for the first time since his cross-country speaking trip, said he had not listened to Taft on a nation-wide hookup Tuesday night nor read Taft's speech.

U. S. Backing Aids Pool Idea

Truman Enthusiastic Over French Proposal

WASHINGTON, May 19—(AP)—President Truman's enthusiastic endorsement gave powerful new emphasis today to a French proposal for pooling French and German steel and coal production.

The President welcomed the plan in a news conference statement yesterday, calling it the beginning of "a new outlook for Europe."

Diplomatic officials said that the project is in line with American policies for encouraging the closest possible ties between Germany and France and for increasing the total production of Western Europe.

They see this specific proposal as contributing eventually to both the economic strength and military security of the Western world.

The President said "there will be many difficult problems to solve in developing this far reaching plan" but he was certain "that the kind of imaginative thinking that went into the proposal can work out the details."

Until Mr. Truman spoke the official American attitude was sympathetic but otherwise publicly undeclared. The plan was put forward by French Foreign Minister Robert Schuman 10 days ago. It evidently took American officials largely by surprise and they wanted to give it careful consideration before committing themselves.

The American attitude is of great importance because of this government's power over German actions—since it is one of the nations, along with Britain and France, in occupation of Western Germany.

Schuman's proposition calls for pooling French and German coal and steel industries under a joint international authority, for having that authority modernize and increase production and for making the benefits of these steps available to other cooperating nations.

Only government intervention could avert the scheduled walk-out—set for 6 a. m. against the 10 Midwestern and Western lines. Although no word came from the White House in Washington after the strike call Wednesday night, the National (Railway) Mediation Board was expected to be called in and attempt to settle the wage-hour dispute.

Plane Development Funds Recommended

WASHINGTON, May 19—(AP)—Money for a speedup in developing faster warplanes and new anti-submarine weapons was recommended today by the House appropriations committee.

The two items were included in a \$625,493,694 appropriation bill sent to the House. A House vote is expected next week.

The committee recommended \$75,000,000 for the plane development program. The program is being handled by the National Advisory Committee for Aeronautics (NACA) which had asked only \$5,000,000 in cash and \$15,000,000 in contract authority to begin a wind tunnel project to test models of faster airplanes.

In proposing \$75,000,000 for this work, the committee said that savings would result from uninterrupted work on the project and there would be an "important advantage from a military standpoint" in providing the facilities more quickly.

Administration Forces Suffer Loss To South

Chances of Any Vote On Truman's Program Killed This Session

WASHINGTON, May 19—(AP)—The Senate virtually killed the Fair Employment Practices (FEPC) bill for the session today by refusing to block filibustering by Southern opponents.

The test came on an attempt to choke off debate on a motion to bring before the Senate for consideration this key measure of President Truman's civil rights program.

A cloture (debate limiting) petition fell short by 12 votes of getting the required 64 for adoption. A roll call showed 52 "yes" and 32 "no" votes.

It was a victory for Southern Democrats and dealt a heavy blow to chances of getting action on any of the President's civil rights program at this session.

The Southern triumph had been anticipated, but Democratic leader Lucas of Illinois said in advance that another attempt to force consideration of the FEPC bill would be made, possibly next week.

His principal hope was to pick up additional votes from Senators who were absent. An absent Senator, in effect, voted against the cloture (debate-limitation) move.

The vote was the first tryout for the Senate's new rule, adopted last year, under which debate on a motion to take up a bill can be shut off by a two-thirds majority of the entire Senate.

Previously such a motion was not subject to cloture, but under the old rule, once a bill was before the Senate, debate could be halted by two-thirds of the senators present and voting.

Railroads Claim Threat 'Unjustified'

CHICAGO, May 19—(AP)—The threatened strike Tuesday of AFL switchmen against 10 railroads, the Western Association of Railroads said today, is wholly unjustified.

"This strike threat," the Association said in a statement "is a reckless drive for prestige—an attempt by one small union to outsmart and outdo a big rival union."

Only government intervention could avert the scheduled walk-out—set for 6 a. m. against the 10 Midwestern and Western lines. Although no word came from the White House in Washington after the strike call Wednesday night, the National (Railway) Mediation Board was expected to be called in and attempt to settle the wage-hour dispute.

B & O Train Held By Yaggon Car Fire

YOUNGSTOWN, May 19—(AP)—The Baltimore & Ohio railroad's No. 9, Chicago Express, from Washington, was held up here Thursday night for about an hour as the result of a fire in a baggage car.

The blaze, discovered a short distance east of the city, was extinguished shortly after midnight as the train held up at the B & O station here. Fire Capt. Alvin Lehner of Youngstown blamed cigarette sparks.

Savings Bond Drive To Open

Replica Of Liberty Bell Here Thursday

An outstanding patriotic program will be held in Salem next Thursday afternoon, when the U. S. Treasury Department will exhibit a replica of the famous Liberty Bell, in connection with the U. S. Savings Bonds Independence Drive.

The bell will be shown at the corner of S. Broadway and E. State st. at 3:30 p. m. Thursday. Preceding the program, the bell will be brought into the city under guard.

Fifty-two replicas of the original Liberty Bell, which was presented to the United States by Great Britain, were made in the French town of Annevy. They are of the exact dimensions of the original bell, cast nearly 200 years ago in England.

The bell has been approved by Treasury Secretary John W. Snyder as the bond drive's symbol because "it symbolizes not only our political independence but also all those characteristics of Americanism which serve to sustain our independence. Of these characteristics, thrift, of course, is one of the most outstanding."

In Salem, the program will include band music, a proclamation by Mayor Harry Vincent, a talk by Thomas Hughes of Columbus, director of the payroll savings division of the Treasury Department in Ohio.

The bell will be rung during the ceremony, followed by the ringing of the city's church bells.

Ellwood Broadwater is serving as chairman of the program, with Alroy Bloomberg as assistant chairman.

Salem's citizens will be able to hear approximately what the original bell sounded like when it proclaimed "liberty throughout the land" in 1776.

Similar bells will be shown in 2,000 communities in the country during the bond drive.

Trouble On Ohio River Avoided By 'Rodeo'

EAST LIVERPOOL, May 19—Crews of two towboats staged an Ohio River rodeo early today in rounding up some 15 barges that broke loose after a collision in the vessels passed in the channel about 3 a. m.

Lockmaster Joe Green of Dam 8 said the boats and barges remained afloat but towing equipment was damaged. The Diesel towboats were the upbound Tradewinds of the American Barge Lines, with 14 barges of coal, steel and gasoline and three empties, and the downbound Louisiana of the Mississippi Valley Barge Lines. Its tow consisted of four barges or steel pipe and two tankers of gasoline.

Green said the river was foggy and the boats were navigating by radar. Both are equipped with radiophones and the Tradewinds' skipper notified Montgomery Island (Pa.) dam, which warned Dam 7 at nearby Midland, Pa. and Dam 8 attendants to watch for the runaway barges.

The barges were scattered quickly by the current, but were rounded up before they struck any ridge piers or dam structures and none grounded, Mr. Green said.

Austrian Treaty Hope Is Dead

Big Three To Relax Occupation Controls

LONDON, May 19—(AP)—The Big Three announced today there is no hope in the immediate future for Russian agreement to an Austrian independence treaty.

They set in motion plans to lift most occupation controls in the Western zones of Austria.

At the same time U. S. Secretary of State Dean Acheson declared that the North Atlantic treaty has been "a positive influence for peace beyond the North Atlantic area."

Acheson issued a statement before boarding the liner Britannia at Liverpool for the return trip from the historic North Atlantic treaty foreign ministers' meetings here.

The U. S. secretary, reviewing the achievements in Big Three and 12-nation talks of the past 10 days, called for "hard and constant work and the closest kind of cooperation in all the fields of national and international life."

Acheson said the North Atlantic Council had provided "means for perfecting the common defense as a deterrent to aggression in order that peace may be more secure." The treaty already, he said, has made its influence felt over a wide area, particularly in encouraging developments in Greece, Iran and Turkey, areas whose security, Acheson said, "is a matter of special concern."

Elaborating on their agreement on Austria reached here, Britain, France and the United States announced they would replace military governors in their occupation zones with civilian high commissioners who will double as diplomatic representatives of their countries in Austria.

SPIC Chick Chairman Gives Contest Advice

JAMES JACKSON, Junior Chamber of Commerce president and chairman of the SPIC Chick contest, today asked residents to limit their voting on the contest to one vote per home.

He pointed out that several votes had been received from the same home, which is against the rules of the contest.

"The purpose of the contest," he said, "is to promote home improvements. We want real improvements reported and not merely routine spring cleaning. There can be only one vote per dwelling since many persons cannot afford to make more than one improvement."

Votes for the SPIC Chick are being accepted at the SPIC headquarters on E. State st.

Airmen Confess To Get Home

Said They Spied So They Would Be Freed

PEARL HARBOR, May 19—(AP)—Two U. S. airmen indicated yesterday they had admitted a Red charge of spying in order to escape from 18 months of captivity in Communist North China.

Marine Sgt. Elmer C. Bender, 27, Cincinnati, and Navy Chief Electrician's Mate William C. Smith, 32, Long Beach, Calif., said they were treated better "than we could possibly have expected."

But they wouldn't say yes or no at a press conference when asked if they had signed confessions that they were American spies. The Communists in announcing their release May 3 said they confessed.

"As far as statements we made while we were up there," said Bender, "we were cut off entirely and the best way to get out was through our own efforts."

Asked what was meant by that, Smith said it was a long story and "I will explain it all later."

When a reporter asked them, however, what means were used to get "confessions," Bender replied:

"There were no means, so-called. But it was that they gave us the idea that we were to be there from now on. We were shut off from home. We had no news from home. The longer we stayed, the longer it looked as if we were going to stay."

The two were captured Oct. 19, 1948, when their light plane was forced down by engine trouble near the North China port of Tsingtao. The city then was a U. S. Navy anchorage and they were on a training flight.

Dulles Defends UN As It Is

Decries Plan Advance
By Herbert Hoover

CLEVELAND, May 19—(AP)—John Foster Dulles says "it is a dangerous business to mix politics and religion and to seek to impose a religious test upon membership" in the United Nations.

Speaking last night at the 100th anniversary banquet at the Temple, largest liberal Jewish congregation in the United States, the GOP leader asserted:

"Let us not destroy an organization, which, just because it includes potential enemies, can be the bridge of peace."

Dulles, consultant to Secretary of State Dean Acheson, apparently referred to a recent proposal by former President Herbert Hoover. Hoover suggested that the UN be reorganized without Russia and other Communist nations.

"We are, I hope, mature enough to want to meet in a peaceful forum those who are unfriendly to us and with whom we strongly disagree," Dulles said.

He advised against retreating "into a toy world of make-believe where we play with paper dolls that do our bidding."

Assemblies of the UN, he added, give representatives of free peoples a chance "to strip Communist propaganda of the veneer that makes it dangerous."

Railroads Oppose Cheap Ships For Lakes

WASHINGTON, May 19—(AP)—A bill authorizing Great Lakes operators to acquire 10 government-owned vessels was attacked by the Association of American Railroads and defended by three Congressmen yesterday.

Gregory S. Prince, attorney speaking for the railroads, told a House Merchant Marine subcommittee the bill "proposes a direct, out-right subsidy to an agency of transportation that is highly competitive with the railroads in the field of domestic commerce."

The Congressmen—Reps. Wolcott (R-Mich.), Lemke (R-ND) and Crook (D-Ind)—contended the measure is essential to re-establishment of package freight service on the lakes.

The bill, sponsored by more than 30 Congressmen, would permit lake operators to acquire the war-surplus ships for as little as 10 per cent of the floor price set by the Maritime Commission.

Prince said the effect would be to give the operators ships for about one-third of what they would have to pay without the government help.

Most of the business obtained by the freighters would be diverted from the railroads, he declared.

He contended the package freight business on the lakes was dying before the war because it was economically unsound.

Bingo Or No Bingo? That's Question In Mechanicsburg

URBANA, May 19—(AP)—The main topic of conversation at the nearby village of Mechanicsburg today is:

"Will the big Eagles bingo game come off tonight?"

Mayor Joseph Chaney of Mechanicsburg says flatly that it will not, because it would be unlawful.

Spokesmen for the Fraternal Order of Eagles are just as emphatic in saying that it will.

Only tonight will bring the answer.

J. W. Fornoff, a member of the Mechanicsburg Eagles lodge, said the hall has been rented to the Delaware Eagles lodge (Delaware County) for a bingo game.

Circulars advertising the game were circulated.

Then Mayor Chaney said he would raid the game if it is held.

"There's an ordinance against gambling," he said, "and I've ordered Police Chief Ira Holley to stop the game if it is held."

"We're going to play bingo," Fornoff told newsmen. "The Ohio Supreme Court says bingo is all right if the receipts are for a charitable purpose. We'll take the case clear back there if we have to."

Bergholz Bank Robber Caught

Partner Shoots Self
As Police Nip Getaway

STUEBENVILLE, May 19—(AP)—One bandit was dead by his own hand and another was in jail today after their \$1,000 hold-up of the Bergholz state bank backfired.

Frank Hilldore, 25, formerly of Steubenville, killed himself with a .45 calibre pistol yesterday when their getaway car was halted by a police road block.

Taken prisoner was Nick Mavromatis, 22, of Steubenville. Police caught up with the pair just 45 minutes after the holdup in the northwest Jefferson County village. The road block was 18 miles from Bergholz.

R. D. George, president of the bank, said the two "looked like salesmen" when they walked in at a time when there were no customers.

Drawing pistols, the gunmen ordered George and Mrs. Edith Martin, the teller, to stand against the wall.

"Then they told me to open the safe, but I couldn't because it was

a time lock," George said. The \$1,000 taken was in a cash drawer.

Mavromatis, identified as the brother of a Steubenville policeman, was held without bond in the county jail today.

He told police that Hilldore recently re-enlisted in the Army and was to have reported back "somewhere" yesterday. The two stole the holdup car in East Liverpool Tuesday, Mavromatis added.

Inquiry Into Postal Curtailment Urged

WASHINGTON, May 19—(AP)—Rep. McSweeney (R-Ohio) said yesterday he believes Congress should investigate the mail delivery curtailment order and its effect on veteran postal employees.

McSweeney told reporters he promised the National Letter Carriers' Conference to oppose any service curtailment that will result in the laying-off of many mail carriers with years of service.

1,342 Housing Units Planned

Columbus Project Approved By FHA

COLUMBUS, May 19—(AP)—Construction will begin soon on the largest housing project ever undertaken in Columbus, an apartment development that will sprawl over 86 acres and cost nearly \$9,000,000.

Karl W. Kumler, district director of the Federal Housing Administration, said the project involves erection of three-story brick and concrete structures to house 1,342 one and two-bedroom units.

Rents will range from \$61 monthly for some of the one-bedroom apartments to \$73.50 monthly for some of the two-bedroom units, Kumler said.

The development will be known as Beverly Manor. The FHA has issued commitments on the project to T. B. O'Toole, Inc., a mortgage loan firm which serves as representative of the New York Life Insurance Co. in Wilmington, Del.

Construction should take 18 months.

Four newly-formed corporations will build the project. Kumler said the corporations were formed by Don A. Loftus, a Cleveland real estate operator; Donald E. Ryan, an executive of Investors Diversified Services, Inc., Minneapolis; and Webster R. Robinson, a New York and California University professor and economist.

The Cookbook

By GAYNOR MADDOX

Chicken Needs Good Stuffing

GOOD bread stuffing is the birthright of every roast chicken. Here's a recipe very popular in the central part of the United States:

Bread Dressing
(Yield: stuffing for neck region and body cavity of 6-pound New York dressed chicken)

Four tablespoons fat, 1/4 cup minced onion, 1 cup diced celery, 4 cups bread cubes, firmly packed, 1 teaspoon salt, 1/4 teaspoon pepper, 1/2 teaspoon poultry seasoning, 1/2 to 1 cup stock, water or milk.

Cook onion and celery in fat over low heat, stirring occasionally, until onion is soft, but not browned. Meanwhile, blend seasonings with bread cubes. Add onion, celery and fat. Blend. Pour the stock over surface, stirring lightly. Add more seasoning as desired. Note: For giblet dressing, brown chopped, cooked giblets in fat before onion and celery are added. Proceed as above.

Grace White, food editor of Family Circle Magazine, has a new idea. She likes to roast her chicken cut in serving pieces. She goes even further. Sometimes she browns the pieces in butter lightly, then pours a rich popover batter in a shallow pan and lays the browned pieces of chicken in it. She bakes it in a moderately hot oven. It's wonderful — puffy, brown and crumbly! Serve it with a cream giblet gravy.

Her roast chicken barbecue is novel too. She roasts it in serving pieces and keeps basting it with a barbecue sauce. Now just imagine this with a mountain of mashed potatoes!

Mashed potatoes — but give them loving care Willie's way. Willie cooked for us in Georgia

salt and shake the pot. Then and then only it is time to call for Willie's husband with the strong right arm. Mash, use lots of butter and freshly ground black pepper and whip warm milk in gradually. Now comes the beating—and I mean beating—until those potatoes are light and smooth and almost like a soufflé.

Fluff them onto the serving plate with roast chicken. And then? How could you ask—why the All-American giblet gravy, of course.

Knox School Bond Issue Must Be Voted On Again

LISBON, May 18—Prosecuting Attorney James MacDonald said today that the \$120,000 school bond issue, passed by voters of Knox Local school district in a special election on March 21, has been held invalid because of a technicality.

He explained that the consent to ask for the bond issue, obtained from the Ohio Department of Taxation and the state board of education, stipulated the election be held March 7. The entire election must be held again.

No Bluff By Duff

PENNSYLVANIA'S Governor James H. Duff has skyrocketed out of the threatened obscurity into national prominence by his triumph in the state's Republican primary. The sniffling remarks by Democratic spokesmen that he will be a pushover in the November election are whistlings in the dark. Duff will give the opposition a run for its money.

He accomplished three things in the primary:

1. He won the Senatorial nomination for himself, snowing under John C. Kunkel, the candidate backed by the organization of former Senator Joseph R. Grundy.
2. He won the nomination for governor over Judge John H. Fine, against the opposition of Jay Cooke, also backed by the Grundy organization. Cooke lost the Senatorial election to Joseph F. Guffy, Democrat, in 1940.
3. He got even for a political rebuff at the 1948 Republican national convention, in which he tried to hold the Pennsylvania delegation for either Senator Vandenberg or Senator Taft. On the second ballot, Pennsylvania swung heavily to Thomas A. Dewey, assuring his nomination. Duff was left high and dry.

Though Duff himself was once a Grundy man, he deserted the organization because he claimed it had outlived its usefulness in politics. Judge Fine, his candidate for the election for governor this year, was closely identified with the late Gifford Pinchot. He and Duff running together next fall will give Pennsylvania voters a choice between the Pinchot brand of liberalism in Republican politics and the Truman brand of statism. If they win, "Grundysm" in Pennsylvania will become a political memory.

90 Minutes For 90 Years

TRYGVE LIE, Secretary-General of the United Nations, has reached the climax of his personal mission to Moscow. He has talked for 90 minutes with Josef Stalin. Previously, he had discussed his objective with subordinate Soviet officials. Being a realist about international politics, he probably did not expect to change anyone's mind.

His objective is clear. He wants to save the United Nations. It will be destroyed if the Kremlin persists in its attitude of obstructing every move made by the members it does not control. The Russian government has the United Nations at its mercy. It knows that. Lie knows it. Every diplomat knows it.

The issue over recognition of a Chinese government sympathetic to the Kremlin is only the latest in a series of positions hostile to the spirit of international cooperation. Other positions equally hostile have preceded this one. Secretary-General Lie knows that other positions equally hostile will follow this one, if it doesn't prove to be the fatal blow.

Trygve Lie, himself, is perhaps as near an approach as can be made in these times to true internationalism. He works for all the members of the United Nations, no single one of them. Yet he has been accused by the Kremlin of being an emissary of the United States and of capitalism. That is the key to the problem he is trying to solve on his mission to Moscow—how it is possible to reach an understanding with a government dedicated to the destruction of every society which does not subscribe 100 percent to the Kremlin plan to revolution and subsequent dictatorship by the Communist party. The peace of the world for the next 90 years was at stake during the 90 minutes that Internationalist Lie and Revolutionist Stalin spent together. It is at stake every time Russia reiterates its doctrine of destroying what it cannot control.

Second Helpings For Swiss

THE SWISS, sometimes accused of being too realistic for the good of their souls, are reported by U.S. News & World Report to be hoarding. But there is more to it than the semi-hysterical practice which plagued the United States during World War II. The Swiss government has adopted hoarding as one of its official policies.

It is motivated less by fear of war than by fear of war jitters which would put Swiss enterprise and the Swiss government at the mercy of their suppliers. Therefore, to create a cushion against the acute attack of war nerves which the Soviet Union is trying to induce in Europe, the government has adopted a policy of piling up supplies of essential commodities. Supplies of some of these already are tight because the Soviet Union is restricting exports from satellite countries which formerly traded with Switzerland.

The Swiss, too weak militarily to swing their weight in the hurly-burly of European politics, nevertheless have outlasted every power which tried to conquer them. They have done this by minding their own business, on the sound assumption that no one else could be trusted to mind it for them, an idea so old-fashioned it has become quaint.

Small Business

By CLARKE BEACH

Government Shows Concern Over Failures

WASHINGTON
If your business is a small one our government is mighty worried about you.

You're the backbone of the nation, the hope of democracy, the vanishing American. Your problems probably have been the subject of more investigations, studies, committee hearings and reports than those of anybody else in the nation. Somebody once figured that between 1933 and 1944 Congress passed more than 570 bills and resolutions dealing with some aspects of the problems of small business.

The Commerce Department ranks nine-tenths of all businesses as "small."

The crusade on behalf of small business got another shot in the arm early this month when the President sent a message to Capitol Hill asking for new legislation for the small business man—to make it easier for him to borrow money.

This is the 1950 "solution" to the small-business problem.

The 1890 "solution" was the Sherman Anti-Trust Act, the law which tried to prevent big business from growing too big and absorbing all the little businesses. Congress went to work again and again trying to tighten up its anti-trust legislation. This effort still rates about No. 2 among the popular "solutions."

During the war Congress tried

in all kinds of ways to keep small business alive and enable it to share in the war effort. Many laws and directives provided that small firms get their share of scarce materials, of government contracts of capital. The armed forces are still directed to give small enterprises a fair share of their orders.

The number of small businesses dropped alarmingly in the depression. After the war they picked up when veterans, with full pockets, got into businesses of their own. Now the total number is on the downgrade again. That's what's worrying the President and Congress.

Every day 1,000 small businesses disappear, according to Charles F. Hughitt, chief of Small Business Division of the department of Commerce. Every day new small businesses are created, but the number of new ones is always a little short of 1,000.

Many of the small businesses which disappear are merged with big business, which is getting bigger all the time.

The President and practically everybody else say they recognize the importance of big business. It has provided mass production and distribution may be absorbed by big business. Then the economic power would be in the hands of a few big men, instead of millions of enterprising little men.

The Hat Trick

By TRUMAN TWILL

ON the subject of men's hats—always good for a misunderstanding—the thing women can't understand is that men wear hats to protect their heads, not to decorate their faces.

At the end of a hard winter, with the hats of most men showing the effects of wear and tear, women adopt a sniffling attitude and begin to put on the pressure for a fresh headpiece. Men, on the other hand, continue to have the same attitude they have had before—they are loyal to the hat they've been wearing. They do not think it is time for a change.

Not all men are loyal, fortunately, or the hat business would go into bankruptcy. But enough men feel this way to drive an equal number of women to distraction, which is the subject matter of this discourse. If women were smart, they'd realize that men's hats are a problem in psychology, not haberdashery, and tackle the problem like this:

"Dream boy, I am overcome with admiration every time I see you in that hat. It is most becoming hat you ever had. It

Pleads For City Hall

Editor, Salem News:
I have read the story describing Salem's fight to save the old town hall.

I have to confess that during my boyhood in Salem the town hall didn't mean much, and its historical significance meant even less.

Now that I have been away from Salem many years, I discover that the town hall has become one of the vivid landmarks of my hometown memories. Seeing its picture again was like seeing an old and favorite friend.

I wish the people of Salem every success in preserving this historical shrine. Surely its enduring historical and sentimental values far exceed the commercial considerations that are arrayed against it.

Right Of Free Speech In America

WASHINGTON
JOSEPH DICKMON, the coal

miner who called John L. Lewis a dictator, is still unemployed after three months. He apologized, but it did him no good. His suspension from the union stands and keeps him out of a job.

Everybody has had kind words of sympathy and there have been offers of financial aid, but it doesn't help Joe Dickmon, who has discovered he is living under a dictatorship and that nobody is doing anything that can help him—certainly not President Truman and certainly not the administration leaders in Congress who are blocking any action on the Taft-Hartley Act to protect workers against arbitrary power by unions.

Joe Dickmon's case is typical of many others. It can be best understood by reading a letter received from him by this correspondent today. Dickmon writes from his home in Library, Pa., under date of May 15 giving the story from the beginning:

"I WROTE a letter to the Pittsburgh Post-Gazette calling Lewis a dictator and asking the men to revolt against him. About four days after this letter was published, Tom Evans (our local pres-

ident) made a statement to the papers that I was through as a coal miner out here.

"I answered by saying here was another case of dictatorship—I never had a trial or a hearing and one man can say that I am through as a miner.

"I imagine that the district leaders realized that Tom Evans was wrong by making that statement without a meeting being held because I received a letter requesting my attendance at the next meeting.

"I was called to the front of the room and Tom Evans read a part from the United Mine Workers' constitution, saying anyone making false statements against any union official is automatically suspended for six months. He then asked how I pleaded. I answered 'not guilty.'

"He then asked the men what are they going to do. A miner got up and made a motion that the constitution be upheld. It was seconded—put to a vote, 151 to 0. I was handed a typed sheet saying I was suspended. Two men were assigned to escort me out of the meeting.

"A lawyer from New Kensington offered his aid free of charge. We filed an appeal to district 5 of which Bussurrello is president. A few months went by and the

lawyer sent another letter signed by me to district 5 saying in effect that we can't go to court until all efforts of trying to get my appeal hearing are exhausted.

"A week after this, I was given a hearing before the board of district 5. In my first letter to the Post-Gazette, I claimed that the rank and file should be sent booklets showing where the money from our dues are being spent and why.

"At the closed hearing before the board of district 5 they showed me booklets that were sent to the treasurer every six months showing all this.

"I apologized for not knowing this and told them I would apologize publicly—in return they were to help me get reinstated and my job back.

"I haven't heard from any of them. I guess they expect me to go to one of their meetings and on my knees beg forgiveness—even then I wouldn't be sure of getting reinstated.

"To get suspended, they notified me to attend a meeting but after apologizing, I guess they figure 'to hell with me.' So that's how things stand right now.

"Sincerely yours,
"Joseph Dickmon

"P. S. By the way, at my appeal hearing before district 5, Bussurrello asked me on what grounds I base my appeal. I told him that everything was prearranged at the local meeting at No. 73 and that no one proved I made false statements. When anyone dares to run against Lewis, he is thrown out of the union. On the ballot, he is the only one running for president—whether you vote for him or not, he is elected. The paper saying I was suspended was all typed and folded before the meeting was even called—which they handed to me."

THIS CORRESPONDENT

checked by telephone with the Pittsburgh Post-Gazette, where the information was forthcoming that Dickmon had been offered his job back by the Pittsburgh Coal Company but had declined it. This was confirmed later by company executives, who stated that Dickmon presumably was afraid that if he went to work the union would order a strike and his neighbors would be out of work. Anyhow, he doesn't want to be a non-union man. He wants membership in a union that is free.

At the office of the general counsel of the National Labor Relations Board here today, it was declared that if Dickmon files a complaint, there would be no legal expense to him as the board's attorneys would follow through on his case to determine if an unfair labor practice had been committed and if reinstatement should be ordered with back pay. It would take several months, however, for such a step to be processed after the complaint was received. It was further stated that if Dickmon did take a job and a strike ensued, the terms of the present injunction would apply against the miners' union, as they would be charged with violation of the injunction.

But where does this leave Dickmon today? He is punished for attempting to exercise his right of free speech in free America, and he has lost his job. Whose "civil rights" do the "liberals" have in mind in all their oratory in the senate this week? Certainly not Joe Dickmon's.

THE senate's gambling investigation is slow getting started but with \$150,000 to spend it shouldn't take long to find a bookie or a flaring crap game;

Or I can turn over my surveys which indicate that the bookies are giving their customers a better bet than Congress does.

Now the house committee is placing a 10 percent snatch on a \$2 dividend and you don't even get a horse to play.

And if it's a 50 cent dividend they'll take the nickel and you can argue about it... it's your nickel.

Duke Of Windsor Happy Man

NEW YORK

"TO BE AS happily married as I am—I call that a good life," said the Duke of Windsor.

He had just finished watching a film screening of his first television appearance.

I had been invited to see the screening in the offices of "March of Time." Before going, on the offchance that the Duke himself might show up, I went around my own office and asked a number of men and women: "What is the thing you'd like to know most today about the Duke of Windsor?"

It turned out that most wanted to know these things: Is he happy? Does he have any regrets over giving up his throne?

Shortly before the hour of screening the Duke did show up—wearing an ageless smile, a jaunty red polka dot bow tie, and a gray striped flannel suit. The years have touched him lightly. He will be 50 next month, but he still has an air of timeless youth.

He said he was sorry the Duchess couldn't come.

DURING THE showing of the film the Duke joked light-heartedly about his acting ability. "My, I look so old," he laughed at one point. Afterward I joined a group chatting with the Duke. I told him what my fellow workers wanted to know about him, and he seemed genuinely pleased at their interest.

"I certainly am happy," he smiled, "although the world today is not a very happy place."

"What do you miss most from your days as King?"

"I don't miss being King, but I do miss my country and working for it," he said. "I never have an idle moment. The day is not half long enough—even when I'm not working."

The Duke has been busy the last three years writing the story of his life from the end of the first world war to the crowded days of his abdication. It is now appearing in Life Magazine.

"We are leaving for France next week," he said. "There I'm going to complete my book."

The expanded memoirs are to be published next fall by Putnam's.

More than 300 bills have been introduced in the U.S. Congress this session calling for federal grants in aid to the states, according to a survey made by Council of State Chambers of Commerce. Many are one-shot bills calling for single public works appropriations. But they would add up to a \$10,000,000,000 total if passed. Bills calling for continuing grants would cost \$2,000,000,000 the first year. The council says most states don't want these grants. Congressmen introduce them, however, in the belief that this is a sure way to get local votes. Then the Congressmen make speeches on the need for greater economy.

Vice President Alben Barkley got a real belly laugh from a story told him after opening day ceremonies for the Washington National's first game. Barkley was walking across the field with Connie Mack, aged 87, and Clark Griffith, aged 80. The two sportsmen seemed to be having difficulty keeping up with the quick pace of the Veep, who never takes any exercise except socially. A woman in the stand said, "That young fellow ought to slow down for those two old men, he'll wear them out." Barkley is 73.

Revolt Due In Toledo CIO

Meeting Today May Bring UAW Blowup

TOLEDO, May 19 — (AP) — Strife-torn Local 12 of the CIO United Automobile Workers holds its monthly general membership meeting tonight.

The meeting is expected to bring to a head a revolt against the administration of the big local which includes 65 units and from 30,000 to 35,000 members.

The rebellion is against alleged domination of the local by Richard T. Gosser, UAW international vice president here. Lined up against Gosser are seven units representing about 6,000 of the local's members.

Secretary-Treasurer Emil Mazey and Edward Kote, West Detroit regional director of the UAW, came here yesterday to try to iron out the difficulties. They held closed hearings all day yesterday and were to hold more today.

"We will be here all day and will be available to anyone who feels he can throw light on the situation," Mazey and Kote said. They said they "hoped to make a report soon" on their findings—an indication that such findings would not be announced locally.

Dissension in the union flared into the open Tuesday when 12 women working in the union's dues collecting office went on strike. A committee of them announced they walked out in protest of "the domination of Richard Gosser" in union affairs and because they were not allowed to vote on strike assessments levied on them.

Mazey and Kote said they would meet with representatives of the striking women this morning; but anti-administration sources reported the women would refuse to talk with the investigators until other workers assigned to their jobs were dismissed.

Unknown Substance In Milk Of Humans Kills Polio Virus

CINCINNATI, May 19—(AP)—A substance in human milk, the identity of which still is unknown, has been established as a destroyer of the virus of poliomyelitis.

That report came yesterday from Dr. Albert Sabin, director of infantile paralysis research in Cincinnati's Children's Hospital.

Dr. Sabin declared, however, that studies are being continued in an effort to learn just what the substance is that destroys the polio virus.

He said the same success in fighting polio has been achieved with the milk from a few cows in a herd of 20 now being studied at two farms near Lebanon, O. There again, more work is to be done, he explained, because researchers have not yet been able to tell why some cows give the substance-containing milk and others do not.

Dr. Sabin said that one thing which led to the discovery of the properties of human milk was the experience in a polio epidemic last year in a Canadian

Eskimo settlement. There were 275 cases of the disease. Twenty per cent of the victims became paralyzed and 14 per cent died but in no case did a child under three years old, when children normally are being nursed by their mothers, become paralyzed.

He said it first was determined that immunity with which all babies are born was not the contributing factor. Then it was found that human milk coats the mouth, throat and digestive tract to set up a barrier to the polio virus.

That, it was explained, was of particular importance since it is by way of the mouth that the polio virus enters the human system.

Continuing the studies, 30 Cincinnati mothers were asked to give both blood and milk specimens. The human milk was mixed with polio virus and injected into mice.

Mice which received the mixture survived without paralysis while those which were inocu-

lated with only polio virus developed paralysis.

"The findings have opened up many, many more fields of study," Dr. Sabin said. "Where we had only one problem before we now have many to solve."

Slow-Learners Said Challenge To Schools

COLUMBUS, May 19—(AP)—The nation's schools face a great challenge to devise programs to meet the needs of slow-learning children, a university sociologist said here last night.

Dr. A. R. Mangus of Ohio State

University addressed the 74th annual meeting of the American Association of Mental Deficiency here. He said:

"Evidence indicates that inability on the part of children to learn at a normal rate may be one of the basic causes of maladjustment."

He said his studies among Ohio school children show that the slow-to-learn as a group display "an abnormal degree of anti-social tendencies measured by test results."

Dr. Mangus recommended that teaching programs should be tailored to meet the needs of retarded students, because causes of their difficulties are varied.

Girls become adjusted to school easier than do boys, and children

who find school work difficult have more acute adjustment problems," he said.

Slow-learning children learn even slower when shamed, the sociologist said, because they feel their teachers, parents and classmates regard them as failures.

A fresh approach to the prob-

lem of retarded children was taken yesterday when a national parents' organization for them was formed.

A five-man steering committee headed by Alan H. Sampson of Seattle, Wash., was named by convention delegates to draw up plans.

'Mobilize Now,' Baruch Urges

Thinks U. S. Should Go All Out In Cold War

Bernard Baruch

NEW YORK, May 19—(UP)—Elder Statesman Bernard Baruch called on the government last night to stop waging "a cold war" against the American people and get busy on the worldwide task of winning the cold war abroad.

Speaking at a seminar on economic mobilization planning at Columbia University, Mr. Baruch charged that although the government "talks total diplomacy,"

we still lack a general staff to devise a global strategy. As a result, he said, "we continue to dissipate our resources without decision."

He renewed his plea for a standby total mobilization law. Such a law must be put on the books now, he said, if we are to prevent war or to win if war is "forced upon us."

He said he does not propose to match the Russians "plane for plane, tank for tank, man for man," but does believe our degrees of readiness should keep pace with that of the Soviets.

"At present," Baruch said, "Soviet mobilization readiness surpasses that of the U. S."

"That is one reason the diplomatic initiative in the 'cold war' is being pressed by the Soviets," he said.

"Although the 'cold war' is now in its fifth year, we still lack the equivalent of a global strategy for the whole of peace waging," he charged. "We still lack the equivalent of a general staff to devise such a strategy and to direct the disposition of our strained resources for maximum effectiveness."

"We still talk 'total diplomacy' without totalling what the whole of the peacemaking requires in

all parts of the globe—not just one area;

"We continue to dissipate our resources without decision;

"Against whom is the 'cold war' being fought? Reading the newspapers these days one would think we are waging (it) against the American people. Let us call a halt to this cold war at home. Let us concentrate on winning the cold war abroad."

If the cold war turns hot, he said, we would save time, lives and money if we had a total mobilization law ready to function instantly.

Cheese Battle On! Ohio vs Wisconsin

WASHINGTON, May 19 — Ohio squares off against Wisconsin today in the big congressional battle of the cheeses—but without the public weighing-in ceremonies which had been planned on the Capitol steps.

House Speaker Rayburn of Texas turned thumbs down on the curtain raiser which Reps. McSweeney (D-Ohio) and Lawrence H. Smith (R-Wis) had proposed.

The two congressmen, whose dispute over the relative merits of the cheese made in their home states developed into today's contest, had planned to display the contestants on the Capitol Plaza, along with a bevy of yodelers to provide the right touch (it's Swiss type cheese.)

Rayburn said no. "If we relaxed on cheese," he told a reporter, "the next thing you know the peanut butter and jelly people would want to use the steps too."

The two 200-pound slabs of cheese were to be delivered to the House and Senate restaurants and served to the lawmakers. They will be asked to keep their opinions to themselves.

Artists' Pictures

Displayed At Library

The fifth annual art show, sponsored by the members of the Salem Artists Club, is attracting considerable attention in the library reading room. The public is invited to witness the display through June 15.

Some of the paintings are unnamed but included in the display are oils, pastels and water colors, depicting scenic beauty, still life and portraits.

Among the larger canvases is "Back Door Snow Scene" by Deimer Rummel; "Still Life" and "Trees Along the Stream" by Webb Mulford; "Portrait" by Mrs. R. C. West; "Fishermen at Westville" by Mildred Franke; and "Snowcapped Mountains" and oil painted photographs by James Lyle.

For the bizarre and unusual, Tom Rowlands displays "Solitude" and "We Learn by Doing" with special frame treatment.

The smaller pictures of note include "Transition," "Bus Terminal" and "The Pavlan Place" by Miss Franke. Lyle's "Park Bench in Wood," "Autumn Splendor" and "Glens" are blendings of beautiful color. "Memories" by Mrs. West tells its own story.

Miss Gertrude Butera, who has information on the pictures, shows water colors of "Flowers in Blue Vase," "Power" and "The Break," the last two of water scenes.

Senate Considers

Reorganization Plan

WASHINGTON, May 19—(AP)—President Truman's battered reorganization program faces new tests today in the Senate, where five of his plans to make changes in federal agencies have died in recent days.

The latest victim was the Agriculture Department plan, which was rejected by a voice vote yesterday without a word being said in its defense.

But two other proposals affecting the Commerce and Labor Departments survived tests in the House.

The House action apparently assures that the Labor plan will be carried out, since no opposition was sighted in the Senate.

But the Commerce plan still must survive a Senate vote. After Tuesday midnight it will be too late for Congress to block it.

Also due to come before the Senate were plans for the Federal Power and Federal Trade Commissions.

HEADS DAYTON U. CLASS

DAYTON, May 19—(AP)—Richard Mayer of Cleveland was elected president of the 1951 senior class at the University of Dayton yesterday. Other officers are James Walsh of Cincinnati, O., vice president; Don Congrove of Norwood, O., treasurer, and Pauline Spring of Dayton, secretary.

News of Our Neighbors

North Georgetown

At the opening exercises of the sixth, seventh and eighth graders of the North Georgetown School Monday morning Betty Denny and Joanne Summer gave interesting descriptions of their trip to Washington, D. C. as representatives of the Knox Township School Bus Patrol at the National Safety Council meeting.

Twenty-seven states were represented by 30,000 members.

The Knox patrol was organized by the George D. Worth Post No. 574, American Legion, in December, 1947.

Miss Denny and Miss Summer have been members of the patrol since its inception. They were sent by the George D. Worth Post, No. 574 as a reward for their faithful performance of duty, scholarship and character.

During the performance of the minstrel given by the Legion post at the high school in August, two members of the cast were honored for their work in making this year's show a success.

Mrs. Charles Antram, who has been the accompanist for the Legion shows, was presented a dozen roses. Mrs. Antram, a Gold Star mother and a member of the Legion Auxiliary has been active in the post's activities since its founding.

Mr. and Mrs. Atlee Freshley were presented with a gift in recognition of the able manner in which Mr. Freshley conducted the combined chorus of the year's show and in honor of Mr. and Mrs. Freshley's 17th wedding anniversary. All members of the cast will be honored in the near future at a party to be given by the Auxiliary.

Lynn Barnett, son of Mr. and Mrs. Jay Barnett was surprised recently when 12 of his boy friends gathered at his home to help celebrate his eighth birthday. He received many gifts. Mrs. Barnett served lunch.

Mr. and Mrs. Arthur Antram and son were weekend guests of Mr. and Mrs. Harry Charlton of Cleveland.

Bucky Harris Holding His Nats 1 1/2 Games Off Yank's Pace

Eighth In 1949, Team Improving

Beat Chicago; Red Sox Outslug Detroit 13-12

Bucky Harris, the Yankee cast-off who never has finished last, has his Washington Senators stirring up quite a rumpus in the American League pennant race.

Harris, back at the Washington helm for the third time, has guided the Nats to nine victories in their last 12 starts and to within a game and a half of the league-leading Yanks.

Bucky, fired by the Yanks after leading them to the pennant in 1947 and third in 1948, inherited a last place ball club after spending 1949 at San Diego in the Pacific Coast League.

"Give me some pitchers to go with Ray Scarborough and we will surprise a lot of people."

Well, Bucky is getting the help he wanted with emphasis on Sid Hudson, who won only eight games and host 17 last year.

The 32-year-old righthander, who pitched side arm last year but who now is pitching in his customary overhand fashion, turned in his fourth victory yesterday as Washington downed Chicago, 7-3. He aided his cause with a triple in the sixth.

THE BOSTON Red Sox knocked Detroit out of a first place tie with the Yanks by outslugging the Tigers, 13-12, in a wild game at Detroit. The Yanks and St. Louis Browns had an open date.

The Red Sox piled up an 11-1 lead, thanks to a seven-run barrage in the fourth inning, but the Tigers came back with six in their half of the fourth and nearly pulled the game out in the ninth.

Detroit had runners on first and third, two runs in and only one out in the last inning, but Joe Dobson buckled down. He got George Kell to lift a short fly to right and then picked up a Vic Wertz' smash off first baseman Walt Dropo's glove and threw him out to end the game. Kell drove in five runs for Detroit.

The roof fell in on the St. Louis Cardinals, who piled up an 8-0 lead over Brooklyn in the first six innings and then went on to blow a nightmarish 9-8 decision at Ebbets Field.

The Dodgers won with four runs in the eighth and five in the ninth. Four of the ninth inning tallies were pure gifts from Cardinal third baseman Tommy Glaviano, who committed three straight errors.

Jim Russell and Jackie Robinson doubled to start the ninth. Furillo popped out but Gil Hodges beat out a hit and Duke Snider walked to load the bases. Glaviano then made his three miscues.

Indians, Red Sox Meet Under Lights

CLEVELAND, May 19—(AP)—Cleveland's Indians are breezing along very well in their first home stand. They've won five of seven games in taking series from Chicago and Philadelphia. Now comes Boston.

The powerful Red Sox, pre-season favorite to cop the pennant, make their first 1950 appearance in Cleveland Stadium tonight, leading with their ace southpaw, Mel Parnell, against the Tribe's Mike Garcia.

Garcia, a big righthander, won three and lost one against Boston last year, but was the victim of a 6-1 beating earlier this month when the clubs split a two-game series in Fenway Park. Parnell lost his second game of that series.

Catcher Jim Hegan, with a lame back, and shortstop-manager Lou Boudreau, with a sore left shoulder, probably will be out of tonight's Cleveland lineup.

The Indians whipped the Philadelphia Athletics 4-3 yesterday in a hard-fought game decided in the ninth, when, with one out and the bases filled, Lou Brissie walked Bob Kennedy to force in the winning run. It was the sixth straight loss for pitcher Brissie.

AL BENTON, who relieved Cleveland's starter Steve Gromek in the eighth, walked in the Athletics' tying run. There was one out, the bases were full, and big Al served up four straight balls to Bob Dillinger, the first batter he faced.

The first two runs of the game were homers. Ferris Fain tagged a Gromek pitch in the fourth, and Bob Kennedy parked a Brissie offering in the left field stands in the sixth.

The Tribe went ahead in the seventh, filling the bases and scoring two runs. Al Rosen started it with a double. Joe Gordon walked and both runners advanced on a double steal. Steve Gromek singled to score Rosen, and Gordon tagged up and came home after Paul Lehner caught

NEWLY-ELECTED SENATOR—Sam Dente, left, and Manager Bucky Harris welcomed Merrill Combs, obtained by the Washington club from the Red Sox. Dente switched to second base to make room for his minor-league double-play partner at shortstop.

23 Teams Expected In N.E.O. Track Meet Here Saturday

The windup of the local track season will come about Saturday with the annual Class A north-eastern Ohio district track meet at Reilly stadium.

Cast in the role of favorites will be the Akron East tracksters, who placed second to powerful Cleveland East Tech in the Night Relays here two weeks ago. They are almost certain to unseat Canton McKinley, 1949 district champions. McKinley beat out East last year 34½ to 28½, with Struthers finishing with 20 points.

The meet will actually get under way at 9 a. m. Saturday, with prelims in the dashes and hurdles and prelims and finals in the pole vault, shot put, discus, and high jump.

Finals will begin at 2 p. m., finishing around 5.

Fred Cope, meet manager, said today he has an entry of 23 teams, one under the record entry set in 1948. He said he may have one or two more teams enter before the deadline. As it now stands boys placing 1-2-3-4 in each event will qualify for the state meet. If 25 teams enter, Cope plans to ask for five qualifiers.

TEAMS ENTERED to date are: Akron South, North, East, Buchtel and Garfield, Salem, Alliance, Barberton, Ravenna, East Palestine, Struthers, Youngstown Rayen, North and Fitch, Canton Lehman and McKinley, Warren, Niles, Massillon, Talmadge, Wooster and Mentor.

Due to the general excellence of the NEO meet records, only a few are in danger of being broken Saturday. The high hurdle mark of 14.8 seconds could possibly be beaten by Glenn Young of East Palestine, who equalled that time in the Columbus County meet. He'll have to cut two-tenths of a second off his best low hurdle time to lower the standard of 25.4, however. All other records appear safe.

Among the almost sure winners in the meet are Young in the hurdles and broad jump, Wagner of Akron North in the mile, and Ray Swansiger of Struthers in the weights.

Akron South's 880 relay squad should win, Herrington and Dudas of East Palestine are cofavorites in the 440, Oliver of Akron East is tough in the 880, McCray of Akron East will be hard to beat in the dashes, and East Palestine's mile relay foursome is almost a cinch.

Phelps of Akron Buchtel, who went 12-2 in the Night Relays, is a shoe-in, while both Coleman and Harsh of Akron East should take the high jump.

Fierce competition in each event is assured, as the boys vie for those coveted Columbus trips.

The meet records: 100—Clifford (Canton McKinley) 1947. Time: 9.8 sec. 220—Jackson (Akron East) 1945.

Dale Mitchell's foul near the left field fence.

Before Benton walked in the tying run in the eighth, Philadelphia filled the bases on Gromek with two singles and a walk, and Lehner singled home one run. Benton made up for the costly pass by fanning the dangerous Sam Chapman and retiring Fain, whose bunt was scooped up by third baseman Al Rosen for a force out at the plate.

AL BENTON, who relieved Cleveland's starter Steve Gromek in the eighth, walked in the Athletics' tying run. There was one out, the bases were full, and big Al served up four straight balls to Bob Dillinger, the first batter he faced.

Preakness Field May Have 7 Horses

BALTIMORE, May 19—(AP)—The names of five and possibly seven, horses will be dropped in to the entry box today for the 74th Preakness stakes, but trainer Syl Veitch says all of the contenders excepting Mr. Trouble will be just wasting their time.

"I think we'll win the race, and Middleground will be second," the congenial trainer of C. V. Whitney's famous racing stable said without batting an eye.

That was a pretty good statement, seeing as how Mr. Trouble was third to Middleground in the Kentucky Derby two weeks ago.

What about Hill Prince, the No. 2 horse in the Derby?

"Well, he'll have to be third," Veitch added graciously.

The \$50,000-added, mile and three-sixteenths classic comes off tomorrow at Pimlico.

Along with the big three of Middleground, Hill Prince and Mr. Trouble, the other two certain starters are Mrs. William H. Labrot's Maryland-bred Balkan, and Mrs. James Carson's Kinsman, once owned by the King ranch of Robert J. Kleberg.

Meanwhile everybody watched the skies, and got rain in their eyes. The weatherman promised clearing skies yesterday, but rain, fog and no sunshine was the order instead.

He thought it might clear up today, but the track is a goopy mess of mud and water, and if more rain comes before the 4:17 p. m. (EST) posttime, there will be no chance of a fast track. In fact, the management will have to work overtime with help from sun and wind to produce a fast strip even if no more rain falls.

Unknowns Leading Western Open Golf

LOS ANGELES, May 19—(AP)—The 47th Western Open golf tournament shapes up today about as expected, with top golfers in the key spots and the usual unknown giving them an argument—at least for one round.

For example, at 69, two under par, is Sam Snead, the West Virginian. That's just about what everyone expected, since Sam is the biggest name entered now that Ben Hogan is bedded with the flu.

But every tourney has its dark horse. This one has two, as of the end of the first round. Jack Gage of Los Angeles is a slight dark swinger who has been in and out of the money in professional tournaments since he won the California amateur 11 years ago.

Ewing Richardson, on the other hand, is the first-day glamor boy. He got off beautiful drives, his woods were down the middle, he chipped neatly when necessary, canned putts with the best of them. And, hours ahead of Snead and Gage, carded his 69.

The Hub, V. F. W. Win In Double A

Amvets Take Another Loss; CIO Triumphs

It's beginning to look like it may be a long, long summer for the Amvets, city softball champions. Tuesday they lost their opening game of the season, and Thursday night they dropped their second tilt in a 3-2 decision to The Hub.

Dave Ehrhart, Hub hurler, gave the champs only three hits. His own team got only four off Johnny Zines, but they were enough to win. Harry Ehrhart led the hitting for both sides, with two safeties.

The victory was the second for The Hub, formerly the Salem China team.

The V. F. W. crew won their second tilt of the season in the other Double-A game at West End park, beating Deming 6-4. It was the Pumpmakers second loss, also.

Johnny McQuiston, Vet hurler, turned in another well pitched game, giving up only five bingles to Deming batters. The Vets could get only four off Frank Lanney, but four Deming errors helped the cause.

Clyde Letcher was the only man on either team to get two hits.

IN CLASS A competition, the CIO club won its second victory, taking Fisher News 3-1. Red Hall of the CIO belted his second homer of the season over the center-field fence in the sixth frame.

Killum twirled for the winners, yielding three hits.

Terminal Tavern took a 5-1 win over Butler Grange on a four hit mound job by Mercer. The win kept the Terminal team on top with two triumphs. The Butler team has lost both starts.

Stout had a pair of hits for Butler, as did Bruderly of Terminal Tavern.

Medics Oppose Ohio Disability Insurance

CLEVELAND, May 19—(AP)—The Ohio State Medical Association says compulsory disability insurance in Ohio is "neither necessary nor advisable."

In a resolution yesterday opposing the plan, the Association said:

"Any state which adopts a compulsory disability insurance program is setting up the pattern for transfer to the federal government."

The resolution, adopted at the close of the Association's annual convention, added that the "time has come to call a halt to the present trend which encourages the surrender of individual initiative."

Dr. Fred Dixon of Cleveland was named president-elect of the group.

Bank Clerk's Loot Stolen

Took \$7,000, Then
Was Robbed Of It

CINCINNATI, May 19—(AP)—A 39-year-old Waverly bank employee who said he took \$7,000 from his bank and then had it stolen from him less than 24 hours later, was expected to be returned to Pike County today.

Paul N. Smithson, assistant cashier of the Waverly State Bank, walked into police headquarters here yesterday and surrendered. He said he had taken the bank funds and left Waverly because he was "fed up." The money, however, was gone and Smithson told acting Police Chief William C. Adams he had been robbed in an alley about 3 a. m. yesterday.

At Waverly, Sheriff Jess H. Foster said the money was taken from a strongbox inside a vault and that about \$13,000 in cash in the same place was not touched. Smithson disappeared after borrowing an automobile from Marion Dixon, a bank clerk, saying he had to go to Chillicothe on business. The car was abandoned in Portsmouth.

Cincinnati police said Smithson told them he was "fed up" because of financial worries. He related that he came here

by bus from Portsmouth and registered at a downtown hotel.

"I went from bar to bar, getting drunk at each step," he was quoted as saying.

He said he eventually joined a man who asked him if he wanted a cab. He said he went to several spots in Newport, Ky., and then came back to Cincinnati.

"I still had the money with me when I got out of the cab," he said. "The next thing I remember was being choked in an alley. When I woke up every thing was gone. That was about 3 a. m. I went back to the hotel to sleep."

Smithson went to Waverly in 1948 from Chillicothe.

Columbiana

Work on modernizing the lighting in the eight rooms of the old part of the high school building will begin soon after the close of school and will be completed for the beginning of the school year next September.

Now, there are a street commissioner and two additional policemen.

The Sorosis Club concluded the season Wednesday evening with its annual May party and candle-light installation of officers, held this year in the dining room of Grace Evangelical and Reformed Church.

After dinner, served by ladies of the church at 6:30, Mrs. Vesta King, "Welcome Wagon lady" of Salem, told of her work of welcoming newcomers to the city and distributing gifts for new

babies, some of the functions of a national organization. Mrs. Frank Gibson sang a group of spring solos.
